Communication Adaptability

Living with severe hearing loss, developed strong communication adaptability and problem-solving skills

SKILLS

HTML

JavaScript

PostgreSQL

Python

React

Tailwind

TypeScript

Node.js

CSS

Github

MongoDB

Docker

PROJECTS

Wealth Psychology

05/2024 - 12/2024

<https://wealthpsychology.in/>

This project helped me improve my understanding of API handling and backend logic, ensuring seamless communication between the frontend and backend.

- Learnt more about building a full-stack web application from scratch, integrating Contentful CMS, and managing backend services with Node.js and PostgreSQL

ExplanatorAI

12/2024 - Present

<https://explanatorai.site/>

This project helped improve my understanding of API handling and backend logic

- Gained experience working with the Django framework in Python to build a chatbot-powered web application
- Learned how to handle backend logic, integrate AI-driven chatbots, and manage database interactions efficiently
